

Bloomingtondale Garden Club

Tuesday, February 16 at 6:30pm

Bloomingtondale Police Dept. lower level

201 S. Bloomingtondale Road

Spring Wildflowers

Mel Zaloudek presents a full color portrait of the beautiful woodland flora native to Illinois. A complete identification of species, in flowering sequence, provides the visual equivalent of an extended walk through the wilds from late April to early May.

Gardening recommendations will be provided, as well as folklore from the past and conservation for the future.

Visitors are welcome!
